

IS CHEVALIER A REAL HOODOO?

Heroic Midshipman Who Saved
Lives of a Dozen Sailors Tells
Some Strange Stories.

THE AFFAIR IS A NIGHTMARE

Striking Feature to Landsmen Is That
So Many Sailors Are Unable
To Swim.

New York, Oct. 4.—Midshipman Godfrey Chevalier, the hero of the Atlantic fleet's disaster last Saturday night, when more than a score of the battleship New Hampshire's sailors were lost through the swamping of a barge, has just been released from the care of surgeons. He nearly perished from exhaustion after rescuing a dozen or more of the imperiled sailors. In the light of his own heroic conduct, Chevalier does not regard the affair with any degree of satisfaction.

"It seems as if I have always been in trouble," he told a number of friends who went aboard the New Hampshire to congratulate him on the part he played in the work of rescue.

"There was a hazing matter at Annapolis, in my plebe year, when everybody in the upper classes said that I had peached on the upper classmen. Other things followed one another so that I thought I was a hoodoo, for fact."

"Then for a while it seemed as if I had a little luck. Things were going pretty well. But two months ago, at Provincetown, Mass., my old bad luck turned up again. I was out in a cutter and we nearly collided with another boat as we rounded the prow of the battleship."

"I saw that the other craft was likely to take off our rudder, so I reached out with my hand to find her off. The result was that my hand was crushed and it was only taken out of the plaster cast a few days ago."

"Then came the awful affair of Saturday night. That is too horrible for me to talk about."

"One of the striking features of the tragedy, at least to landsmen, has been the revelation that so many sailors, men who actually live upon the water, were unable to save themselves by swimming. Lieut. Commander Schofield of the New Hampshire is authority for the statement that a recent census of the ship shows that more than 300 members of the crew are unable to swim a stroke."

"There is nothing in the regulations compelling an enlisted man to learn to swim," says Commander Schofield. "Many of them enlist from inland towns where they have never had an opportunity to learn. When they get liberty they don't want to spend their time in that way—what can we do?"

PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they had not troubled me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

PULLMAN ROBBERS GOT MANY THOUSANDS

Pueblo, Colo., Oct. 3.—Robbery committed on the Pullman car Rosemont, at Red Rock, Colo., westbound passenger train, which arrived here this afternoon, noted the robbers between \$2,000 in cash, drafts, checks and jewelry.

George L. Parsons of Chicago lost \$7,000 in drafts. H. S. Hollister, Chief Inspector and Captain J. Knight, all of Chicago, were among the losers.

The car Rosemont was detached from the train here and will be subjected to careful search for the missing property. In the meantime, A. Gaines and J. Drake, porters of the car, are being held in police custody.

FACTS FOR CATARRH SUPPERS.

The mucous membrane lines all passages and cavities communicating with the exterior.

Catarrh is an excessive secretion, accompanied with chronic inflammation, from the mucous membrane.

Hood's Sarsaparilla acts on the mucous membrane through the blood, reduces inflammation, establishes healthy action, and radically cures all cases of catarrh.

MAYOR GAYNOR TELLS POLICEMAN TO BE POLITE

New York, Oct. 3.—When the mayor accompanied by Mrs. Gaynor was leaving the city hall for Brooklyn in an automobile, a policeman called out roughly to the crowd:

"Get out of the way there!" The mayor instantly turned on the glass front of the car and had his chauffeur stop. Then putting his head out of the door, he called the officer to him and said:

"Sir, do not speak to people like that. Address them politely. They are not my way, and if they were they would get out of the way. You must learn to be polite to the people of the city. You have no right to speak like that."

This city will have many Diapiesin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too. If you ever try a little for Indigestion or Gastritis or any other Stomach misery, you will see now, this minute, and forever rid yourself of Stomach Trouble and Indigestion.

PROF. ALLAN HOBEN'S STUDY OF BOY QUESTION

Boy's Animal Instinct Like a Little
Savage's—To Convert Him You
Must Convert His Gang.

Chicago, Oct. 3.—"If you want to appeal to a boy you must cultivate his 'gang.'"

This is the conclusion of Prof. Allan Hoben of the University of Chicago after an exhaustive study of the subject, "Boy."

He told an audience at the Fuller-ton Avenue Presbyterian church his ideas about the topic last night when he gave his address on "Biology and the Boy Nature."

Prof. Hoben has reached the conclusion that "boy" in the stages between 12 and 16 years has instincts as primitive as those of the cave dweller. His reasons are:

The boy's love for his "gang." His love for "vagrancy," which the speaker included under the head of wandering, and the boy's love for adventure.

His love for fire even on the hottest summer days.

His love for physical exertion and for a "mix-up," any old time.

"The animal instinct in a boy is like that in a little savage," declared the professor. "I have made investigations in South Side districts of this city and I discovered that 'gangs' existed on an average of one in every two blocks. 'The time has come when we must take cognizance of this 'gang' spirit if we hope to win the boy's confidence. We must appeal to him through his 'gang.'"

In several instances where we gained the confidence of the 'gang,' we organized athletic clubs and in this way we appealed to the love of the boy for physical exertion. Through this agency we could teach the boys things. It is almost impossible to convert the individual boy. When you convert him you must convert his entire 'gang.'"

COLUMBIA LEADS IN
NUMBER OF STUDENTS

New York, Oct. 3.—Columbia university's registration figures given out today place that institution in the lead of American universities in the number of students. The total registration is 7,058 but as there are always late comers, they will probably increase the number by 200 or 300. The net increase over last year is 550.

ALL PRIVILEGES RESTORED
TO WEST POINT CADETS

West Point, N. Y., Oct. 3.—By order of Gen. Thomas S. Barry, superintendent of the military academy, all privileges which were withdrawn a week ago after the silence given Capt. Longan in the mess hall, were restored to the cadets this evening.

Late this afternoon the board of inquiry stopped hearing witnesses and the entire corps was marched to the gymnasium, where they were met by Gen. Barry who behind closed doors gave his several hundred charges a heart-to-heart talk.

The superintendent knew nothing of the case other than that which he had read in the newspapers, he said, and there will be no punishments for those whom the board of inquiry report implicated, but that would come later after due consideration of the findings.

FIVE HUNDRED FEWER
SALOONS IN NEW YORK

New York, Oct. 3.—There are 500 fewer saloons in Greater New York than there were a month ago, according to Excise reports. The proprietors of the 500 saloons failed to comply with the new laws under which new licenses were granted for the fiscal year ending Sept. 30.

The bonding companies are largely responsible for the closing of the saloons. The companies put their rates up to a practically prohibitive figure for all the saloonkeepers against whom charges of violation of the excise laws had been made in the last year. A \$3,000 bond is required by the state of all saloonkeepers.

A new state law provides also that properties once abandoned cannot be used again. The dropping of the 500 licenses, therefore, represents a permanent decrease in the number of saloons in New York city. The new law is designed to reduce the number of saloons to one to each 750 of the population. At present, there is one saloon to each about 500 of the population.

FIRST REPORT ON
WOMAN'S NIGHT COURT

New York, Oct. 3.—The first report on the work of the woman's night court established in New York, for a month ago shows that the number of women arrested during the month for disorderly conduct was 446. Of this number 263 were convicted and sentenced.

Under the law governing the court, a finger print record of all the women convicted has been taken. Fifty-three of the total number arrested were subjected to medical examination and 40 of these were sent to the hospital ward on Blackwell's Island to serve out their sentences.

All the suffrage organizations of the city are preparing to fight the medical examination feature of the law and representative club women will go to Albany this winter to urge its repeal. The court's report shows that three out of every five medical examinations become hospital cases. This the defenders of the court point to in justification of its existence; also the fact that the number of arrests for the month shows a decrease over a year ago of 60 per cent.

SEATTLE GRAFTING
INVESTIGATION CASE

Seattle, Wash., Oct. 4.—The city council last night adopted a resolution enlarging the scope of the graft investigation to be made by the special committee appointed last week so that the operation of all departments may be investigated.

Members of the committee, it was learned, have been conducting individual investigations during the last week and have found, they say, that open gambling and the operation of poolrooms and handbooks were permitted by certain members of the police department.

CONGRESSMAN TAWNEY PLAYS ROLE OF A HERO

In Saving a Mother and Her Children
From Almost Certain Death, He
Was Seriously Hurt.

Winona, Minn., Oct. 4.—Congressman James A. Tawney played the role of a hero yesterday and saved a woman and her three children from almost certain death behind a runaway horse. In doing so, however, he came in contact with a barb wire fence and now his face and hands are done up in bandages.

Mr. and Mrs. Tawney were guests in the automobile of a friend and had spent the afternoon on the river road. A woman with three children in a carriage signaled to the autists to stop. The car was brought to a halt and Mr. Tawney stepped out to assist in leading the horse past, the woman and her children remaining in the carriage.

Hardly had Tawney seized the reins at the horse's head before the animal plunged up the hill, dragging the congressman and the buggy after him. Mr. Tawney clung tightly and frantically sought to bring the horse to a stop. He was unsuccessful, however, and it dashed past the automobile and to the other side of the road into a barb wire fence. Mr. Tawney got the full force of the impact with the fence.

DROWNED OR POUNDED
TO DEATH ON THE ROCKS

Seattle, Wash., Oct. 4.—J. Everett Graham, 32 years old, of Ballard; Ben Larson, 28, of Everett; Paul Burkland, 18, of Meadowdale, and Peter Hiram, 18, of Ballard, were drowned or pounded to death against the rocks and logs against the shore of Puget sound Sunday night.

Graham with Hiram, tried to make a landing in a launch at a fish trap near Pilot Point. When the launch tied up at the trap Larson and Burkland went out in a rowboat to bring them ashore. The bodies of Hiram, Larson and Burkland have been recovered.

EX-MAIL CARRIER
CONFESSES TO STEALING

Chicago, Oct. 4.—Robert T. Sweeney, formerly a mail carrier, pleaded guilty in the federal court yesterday to the charge of having stolen \$25.00 worth of notes from the mails. A short time later he was placed on the witness stand and turned state evidence against Atty. Sheddick B. Turner, the editor of a weekly paper.

Turner is charged with having possession of the stolen notes and trying to dispose of them. The notes belong to a manufacturing company and were stolen from the mails June 12, 1909. Sweeney swore on the stand that he gave \$40.00 of the notes to Turner to sell and burned the remainder of them.

All of the stolen notes except those that Sweeney destroyed by fire have been recovered and are in evidence at the trial. Judge Landis took the matter of Sweeney's punishment under consideration until after Turner's case had been tried.

THE STOLEN ARRIVE.

New York, Oct. 3.—Bollamy Storer, former ambassador to Austria-Hungary and Mrs. Storer, reached here today from Europe. They have been for five months. Mr. Storer said he preferred not to talk on the recent re-opening of the dispute of several years ago in which the Storer and Col. Roosevelt, then president, were involved.

Mr. Storer said he had nothing to do with the recent publications and hoped there would be no further discussion of the matter.
